NETWORKS

Fiber Optic Components

FIND ALL LATEST CATALOGUES, SPECIFICATION SHEETS, MANUALS AND OTHER INFORMATION ON OUR WEBSITE:

www.sominetworks.com

The image displays three rectangular promotional cards for somi' NETWORKS, arranged side-by-side. Each card features the company logo at the top left and a product photograph in the center.

- Network cabinets and accessories:** Shows two open metal network cabinets. The text "Network cabinets and accessories" is centered below the image, with the website "www.sominetworks.com" at the bottom.
- Fiber Optic Components:** Shows several fiber optic cables and connectors. The text "Fiber Optic Components" is centered below the image, with the website "www.sominetworks.com" at the bottom.
- Active Fiber Components:** Shows a stack of electronic modules with fiber optic ports. The text "Active Fiber Components" is centered below the image, with the website "www.sominetworks.com" at the bottom.

Wide range of fiber optic cabling solutions, active equipment, 19“ cabinets and accessories.

SOMI NETWORKS – **is an European distributor and manufacturer** of active fiber optic equipment, passive fiber optic network components, 19“ cabinets and accessories.

Started in the 2004 SOMI NETWORKS was one of the first suppliers of networking equipment in Eastern Europe, and since that year we managed to offer custom product solutions to our partners and distributors, and grow huge „know-how“ potential.

Started as a distributor, now **we can offer wide range of our own products** in the area of fiber active and passive components, 19“ cabinets and accessories. Some of the products are specially designed by our engineers, to fit most demanding needs of the biggest internet providers, datacenters and other applications.

Our main production is still based in Asia, but for custom products we have a **production lines in the center of Europe - Lithuania**, so we could be closer to you and offer a better reaction time.

We offer complete fiber optic connectivity solutions, for datacenters ISP providers and other applications. Our new UltraDensity MPO/MTP solution sets the new standard in high density datacenter fiber management.

We are already pending certification for our quality and environmental standards **ISO 9001 and ISO14001**.

Our mission is to deliver our field tested solutions to the partners all over the world.

Application

- Telecommunication Networks
- FTTX, FTTH
- LAN, WAN, CATV and MAN applications
- Fiber Communication Systems
- Data Processing Networks
- Industrial and Military applications

Features:

- Simplex, duplex or quad versions
- Singlemode and Multimode supply
- Phosphor bronze or Zirconia ceramic sleeve
- Low insertion and back reflection loss
- High precision alignment sleeve
- Compact design
- Comply to ROHS requirements

FIBER OPTIC PIGTAILS

Standart pigtails

Application

- Telecommunication Networks
- FTTX, FTTH
- LAN, WAN, CATV and MAN applications
- Fiber Communication Systems
- Data Processing Networks
- Industrial and Military applications

Features:

- Constructed from high quality connectors and fibers
- Semi-tight-buffer, easy strippable
- Connection easy to link properly
- High corrosion resistance and high interface performance
- Supplied with a test report detailing insertion and return loss
- UL standard connectors, comply with ROHS requirements

**Application**

- Passive optical networks
- Fiber optical sensor
- Optical power receivers protection
- Multi wavelength systems balancing
- EDFA loop tests and measurements

Features:

- Metal ion doped fiber
- Attenuation levels ranging from 1dB to 30dB
- Low back reflection
- High power endurance
- Maximum stability, reliability and flat spectral response
- 100% IL, RL and visual inspection tested
- Easy to connect/disconnect (Push-Pull)
- High mechanical resistance

Technical Data

Item	Parameter
Operating Wavelength	1310nm - 1550nm
Attenuation Range	1~30dB
Return Loss	PC: ≥50dB UPC: ≥55dB APC: ≥65dB
Attenuation Tolerance	±0.5dB (1-10dB) ±1.0dB (11-30dB)
Polarization Dependent Loss	<0.2dB
Maximum Optical Input Power	200mW
Operating Temperature	-40°C+80°C

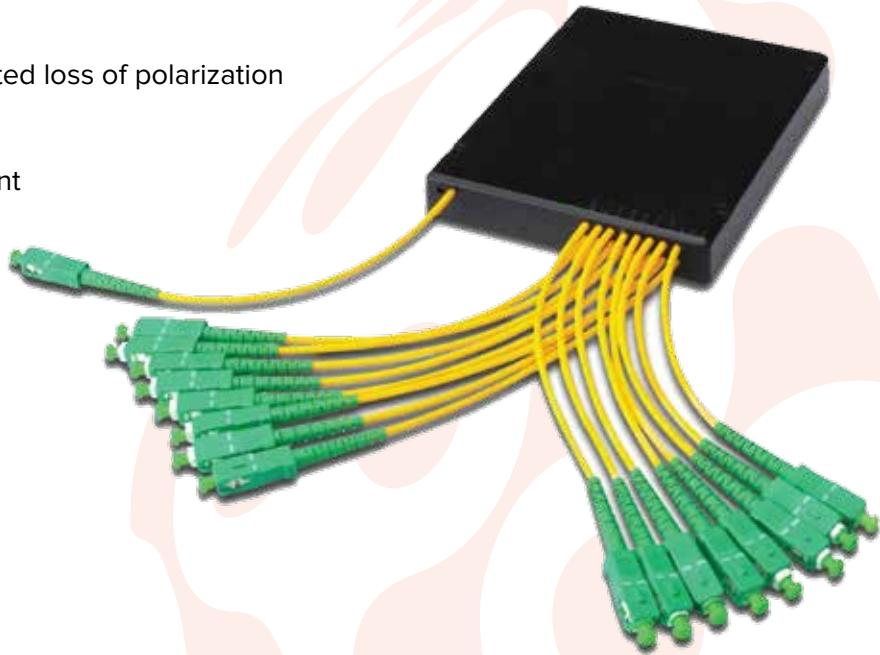

Ordering information:

Overview

Planar Lightwave Circuit Splitter (PLC Splitters) is a technology based on planar waveguide optical power distribution products, with low insertion loss and polarization dependent loss, small size, wide operating wavelength range, high channel uniformity and good characteristics. Especially for passive optical network (EPON, BPON, GPON, etc.) to connect the central office and terminal equipment and optical signal splitter to achieve. All products comply with Telcordia GR-1209-CORE, Telcordia GR-1221-CORE, YD / T 1117-2001 and RoHS standards. Optic King 1xN technology can provide a full range of 2xN products, and customized for all occasions in the optical splitter.

Features:

- Ultra-low insertion loss and associated loss of polarization
- Good spectral uniformity
- Wide wavelength bandwidth,
- A wide range of working environment
- High reliability
- Small Size

Applications

- Can be widely used for FTTx
- Passive Optical Network (OPN)
- Cable TV Network (CATV)
- Other optical signal splitter system

Standard compliance

- Telcordia GR-1209-CORE
- Telcordia GR-1221-CORE
- YD/T1117-2001

Explanation: 24 fiber MTP female – MTP Male SM 20m long trunk cable with LSZH sheath

MPO/MTP UltraDensity system - High Density MPO panels

SOMI NETWORKS MPO/MTP UltraDensity System is probably the best MPO/MTP solution, when saving space in your datacenter or other application is critical. The most dense solution you will find on the market, was designed for growing needs for space saving in the Datacenters.

Features

- Ultra High Density
- Up to 144 fibers in 1U!
- Easy Installation
- Rear and front cable management solution
- Sliding drawers for easy access
- Possible to mount on open racks with only two 19" frames
- All panels comes fully loaded with empty MTP modules

Ordering information:

UltraDensity series ODF have 1U, 2U, 3U, 4U design for choices. Detailed specification as below:

Item	Model	Dimension (W*H*D)	Drawer Quantity	Module/Quantity	Fiber count
1	UDO1U-144	482.6*1U*420	1	6	144
2	UDO2U-288	482.6*2U*420	2	12	288
3	UDO3U-432	482.6*3U*420	3	18	432
4	UDO4U-576	482.6*4U*420	4	24	576

MPO/MTP

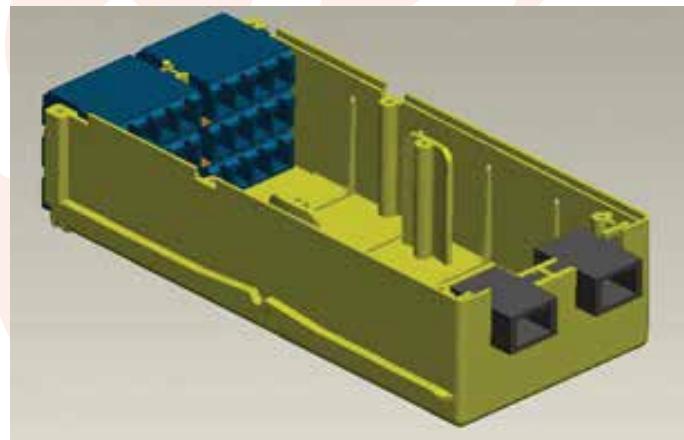

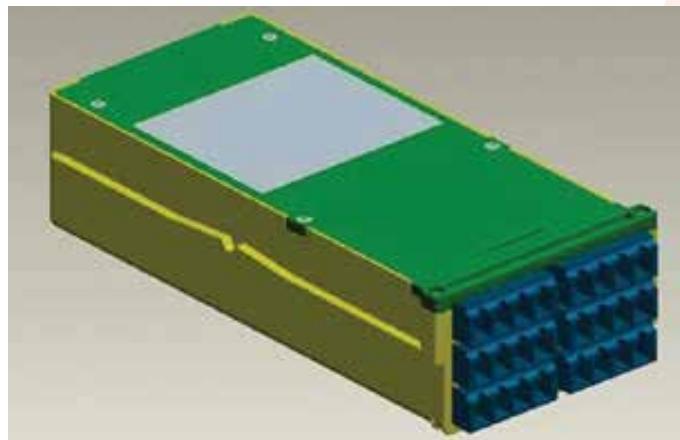

MPO/MTP UltraDensity Module, for High Density MPO modules

SOMI NETWORKS MPO/MTP UltraDensity System is probably the best solution, when saving space in your datacenter or other application is critical.

UltraDensity modules are probably smallest solution in fiber optic market, which allows to instal six 24fiber modules in 1U, making such system the highest density possible.

Features

- High Density
- LC, SC and other options
- 12 fibers/24fibers options
- Easy Installation in UltraDensity panels

MPO Adapter

Features

- Low insertion and back reflection loss
- Good exchangeability
- Good durability
- High temperature stability
- Standard: Telcordia GR-326-CORE

Applications

- Data center
- Storage Area Network
- Cabinet-to-cabinet connections
- Short distance connections within a single rack or cabinet

Performance

Characteristics	Value
Insertion Loss	<0.2dB
Durability 500 Matings	<0.2dB
Operating Temperature	-40°C ~ +75°C
Storage Temperature	-50°C ~ +85°C

Description

Somi Networks offers a full range of CWDM Mux-Demux and Optical Add Drop Multiplexer (OADM) units to suit all kinds applications and network solutions. Some most common ones are: Gigabit & 10G Ethernet, SDH/SONET, ATM, ESCON, Fibre Channel, FTTx and CATV.

Coarse wavelength division multiplexer (CWDM Mux/Demux) utilizes thin film coating technology and proprietary design of non-flux metal bonding micro optics packaging. It provides low insertion loss, high channel isolation, wide pass band, low temperature sensitivity and epoxy free optical path.

Our CWDM Mux Demux products provide up to 16-channel or even 18-channel Multiplexing on a single fiber. Due to the low insertion loss is needed in WDM networks, we can also add "Skip Component" in a CWDM Mux/Demux module to reduce the IL as an option. Standard CWDM Mux/Demux package type include: ABS box package, LGX package and 19" 1U rackmount.

Application

- Line Monitoring
- WDM Network
- Telecommunication
- Cellular Application
- Fiber Optical amplifier
- Acess Network

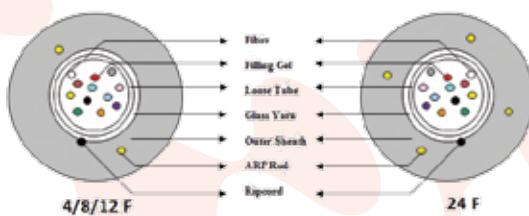

Features

- Low Insertion loss
- Wide pass band
- High Channel Isolation
- High Stability and reliability
- Epoxy-free on Optical Path

Best tool for preparing this cable for splicing is SN13139A. You will easily cut off the outer sheath, and prepare it for fiber stripping.

*Detailed specification you will find in tool section of the catalogue.

INDOOR FIBER TERMINATION BOXES

TH-001 FIBER OPTIC TERMINATION BOX FOR 2 FIBERS

Applications

- Widely used in FTTH (Fibre To The Home) applications
- FTTD (Fibre To The Desk) interfaces

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TH-001	86 x 86 x 19	2	SC simplex / LC duplex	4 x Ø5mm

TH-002 FIBER OPTIC TERMINATION BOX FOR 4 FIBERS

Applications

- Widely used in FTTH (Fibre To The Home) applications
- FTTD (Fibre To The Desk) interfaces

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TH-002	80 x 120 x 25	4	SC simplex / LC duplex / LC quad	1 x Ø10mm

TB-007 FIBER OPTIC TERMINATION BOX FOR 4 FIBERS

Applications

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TB-007	152 x 107 x 31	4	SC simplex / LC duplex	2 x Ø10mm

TB-008 FIBER OPTIC TERMINATION BOX FOR 12 FIBERS**Applications**

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

**Technical specification and ordering information**

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TB-008	107 x 152 x 31	12	SC simplex / LC duplex	2 x Ø10mm

TB-001 FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 24 FIBERS**Applications**

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

**Technical specification and ordering information**

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TB-001	265 x 154 x 56	24	Max 4 x 6 fibers	2 x Ø10mm

TB-002 FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 12 FIBERS**Applications**

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

**Technical specification and ordering information**

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TB-002	200 x 110 x 45	12	Max 2 x 6 fibers	2 x Ø10mm

INDOOR FIBER TERMINATION BOXES

TB-DIN1 FIBER OPTIC BOX DIN RAIL MOUNTABLE

Applications

- For inhouse distribution points in FTTH (Fibre To The Home) applications
- Electric / communication cabinets, where DIN rail mounting applicable

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
TB-DIN1	125 x 35 x 132	12	SC duplex / LC quad	4 x Ø10mm

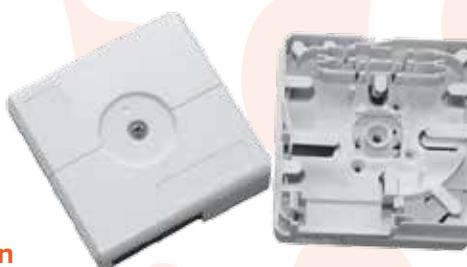

TB-X50-NN FIBER OPTIC TRANSITION/CONNECTION BOX FOR UP TO 4 FIBERS

Applications

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Cable ports
TB-X50-NN	82 x 82 x 36	4	2 x Ø10mm; 4 x Ø5mm

CTB-1 FIBER OPTIC BOX FOR MEDIA CONVERTER

Applications

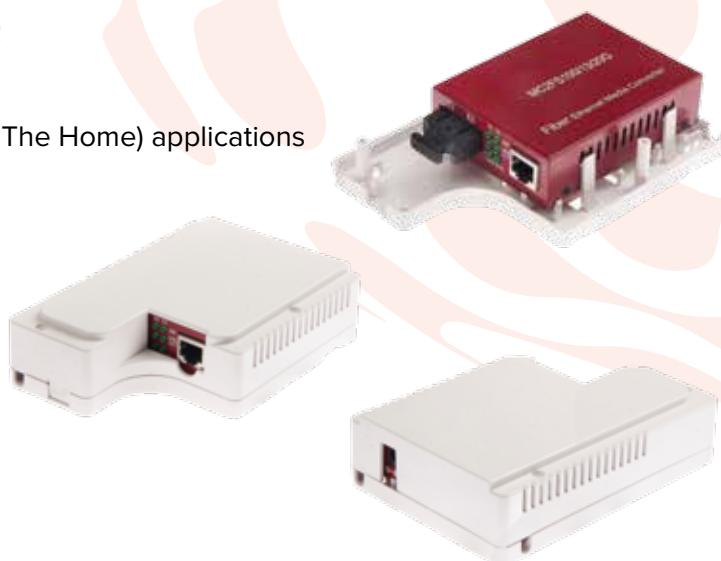

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Tough and longlife plastic material

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)
CTB-1	142 x 100 x 40

FTB-1 FIBER OPTIC TERMINATION BOX FOR UP TO 12 FIBERS**Applications**

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Material – 1.2mm steel sheet

**Technical specification and ordering information**

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Cable ports
FTB-1	210 x 153 x 32	12	1 x 12 fibers	4 x Ø9mm

FTB-8SC/4DSC FIBER OPTIC TERMINATION BOX FOR 8 FIBERS**Applications**

- For inhouse distribution points in FTTH (Fibre To The Home) applications

Features

- Ergonomic design
- Fiber routing for bend radius protection
- Removable cover for easy access
- Material – 1.2mm steel sheet

**Technical specification and ordering information**

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Splice trays	Cable ports
FTB-8SC	210 x 153 x 32	8	SC simplex	1 x 12 fibers	2 x Ø9mm

FTB-12ST	210 x 225 x 32	12	ST simplex	1 x 12 fibers	2 x Ø9mm

INDOOR/OUTDOOR FIBER TERMINATION BOXES

TB-X04 FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 12 FIBERS

Applications

- Indoor/outdoor applications
- Data centres, premise installations, telecommunication networks

Features

- Lightweight and easy to install
- Fiber routing for bend radius protection
- Clear and secure fiber management
- Tough and longlife plastic case

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Splice trays	Cable ports Grade	IP
TB-X04	240 x 210 x 40	12	SC simplex / LC duplex	1 x 12 fibers	1 x Ø8mm; 4 x Ø3mm	IP55

•

TB-Y04 FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 12 FIBERS

Applications

- Indoor/outdoor applications
- Data centres, premise installations, telecommunication networks

Features

- Lightweight and easy to install
- Fiber routing for bend radius protection
- Clear and secure fiber management
- Tough and longlife plastic case

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Splice trays	Cable ports Grade	IP
TB-Y04	210 x 174 x 74	12	SC simplex / LC duplex	1 x 12 fibers	1 x Ø8mm; 4 x Ø3mm	IP65

•

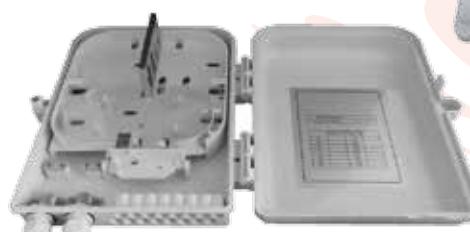

TB-X20 FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 24 FIBERS

Applications

- Indoor/outdoor applications
- Data centres, premise installations, telecommunication networks

Features

- Lightweight and easy to install
- Fiber routing for bend radius protection
- Clear and secure fiber management
- Tough and longlife plastic case

Technical specification and ordering information

TB-X20	320 x 260 x 90	24	SC simplex / LC duplex	1 x 24 fibers	2 X Ø12mm	IP67

TB-X30B FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 16 FIBERS**Applications**

- Indoor/outdoor applications
- Data centres, premise installations, telecommunication networks

Features

- Lightweight and easy to install
- Fiber routing for bend radius protection
- Clear and secure fiber management
- Tough and longlife plastic case

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Splice trays	Cable ports Grade	IP
TB-X30B	215 x 200 x 54	16	SC simplex / LC duplex	1 x 16 fibers	2 X Ø12mm	IP67

**TB-X100 FIBER CONNECTION/DISTRIBUTION BOX FOR UP TO 8 FIBERS****Applications**

- Indoor/outdoor applications
- Data centres, premise installations, telecommunication networks

Features

- Lightweight and easy to install
- Fiber routing for bend radius protection
- Clear and secure fiber management
- Tough and longlife plastic case

Technical specification and ordering information

Part number	Dimensions mm (H x W x D)	Fiber capacity	Adapter type	Splice trays	Cable ports Grade	IP
TB-X100	168 x 132 x 33	8	SC simplex / LC duplex	1 x 8 fibers	2 X Ø12mm; 8 X Ø5mm	IP43

19" FIBER OPTIC PATCH PANELS

19" FIBER OPTIC PATCH PANELS

Excellent quality and functionality fiber optic patch panels. Designed to meet the highest expectations of customers by offering flexible solution with the ability to use a full array of adapter types, simple installation, easy maintenance and access. Panels supplied unloaded and pre-loaded.

Application

- Indoor applications
- Data communication
- Ethernet, Fibre Channel, ATM, LAN, MAN and WAN
- Data centres, premise installations, telecommunication networks

Features

- Fits standard 19"
- Individually labelled ports
- Multiple adaptor options available
- Ability to use a full array of adapter types
- Unloaded and pre-loaded options
- Standard colour RAL 7035 (Light Grey). Optional colour RAL 9005 (Black)

Technical specification and ordering information

Part number	Description	Dimensions mm (H x W x D)		
19" 1U	Fiber Optic Patch Panel	42	443	241
19"/2U	19" 2U Fiber Optic Patch Panel	88	443	241
19"/3U	19" 3U Fiber Optic Patch Panel	132	443	241

Part number	Front Plates Types
1U12DSC	1U Front Plate 12 SC Duplex / LC Quad /
1U12SC	1U Front Plate 12 SC Simplex / LC Duplex / MTRJ / E2000
1U24SC	1U Front Plate 24 SC Simplex / LC Duplex / MTRJ / E2000
1U24DSC	1U Front Plate 24 SC Duplex / LC Quad
1U12ST	1U Front Plate 12 ST/FC Simplex
1U24ST	1U Front Plate 24 ST/FC Simplex
2U48DSC	2U Front Plate 48 SC Duplex / LC Quad
2U48SC	2U Front Plate 48 SC Simplex / LC Duplex / MTRJ / E2000
3U72DSC	3U Front Plate 72 SC Duplex / LC Quad
3U96SC	3U Front Plate 96 SC Simplex / LC Duplex / MTRJ / E2000

CABLE GLANDS

- Durable nylon construction
- IP 68 rating
- CE / RoHS compliant

**Ordering information**

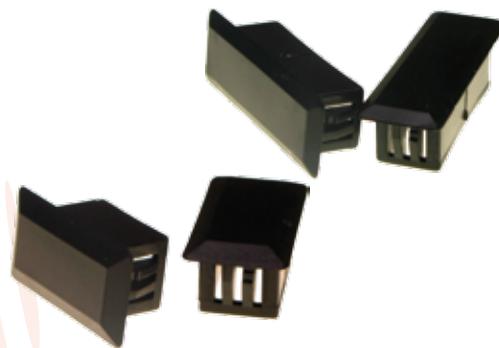

Part number	Cable Glands
SN17003-PG9	Cable Range: 4 - 8 mm
SN17003-PG11	Cable Range: 5 - 10 mm
SN17003-PG13.5	Cable Range: 6.7 - 12 mm
SN17003-PG16	Cable Range: 10.2 - 14 mm
SN17003-PG21	Cable Range: 13 - 18 mm

BLANK COVER FOR UNUSED PATCH PANEL PORTS

- Blank plugs to cover unused patch panel ports, and to ensure a tidy and professional installation.
- CE / RoHS compliant

Ordering information

Part number	Blank Plug Types
SN13043A	ST adapter type blank plug
SN13043B	SC simplex adapter type blank plug
SN13043C	SC duplex adapter type blank plug

**OPTICAL FIBRE HEAT SHRINK PROTECTION SLEEVE**

- Splice protectors to maintain the strength & environmental stability of optical fibre cables after fusion splicing
- Easy to use and install without damaging splice
- Maintains optical properties of fibre
- heat shrinkable outer tube, hot melt fusion tube and stainless steel strength rod
- Clear sleeve to allow visual location of splice prior to shrinking
- 45mm and 60mm length

Ordering information

Part number	Heat Shrink Sleeves
SMOUV Z-45	45mm Heat shrink sleeve
SMOUV Z-60	60mm heat Shrink sleeve

**BUNNY CLIPS**

Cable management clips are usually used for fiber management in fiber optic panels and boxes.

**Ordering information**

MT-TIE	Bunny Clip rings for cable management
--------	---------------------------------------

SC/ST holder Keystone tpe

Plate for SC simplex, LC duplex and ST adapter instalation in Keystone standart ports

**Ordering information**

SN12305C	SC simplex and LC duplex adapter holder, for Keystone ports
SN12305D	ST adapter holder, for Keystone ports

Fiber dome splice closures

Applications

- Aerial, pole-mounting, wall-mounting and underground applications
- For long haul, metro, local access (xDSL, HFC, wireless backhaul)
- FTTx deployments where aerial, below-grade and direct buried, sealed optical fiber splicing is required

Features

- Ease of installation and re-entry into the closure, no special tools required
- Installation over existing cables without disturbing a working cable
- Constructed of durable, water-proof, UV and chemical resistant material
- Robust body has high mechanical strength against impact
- Efficient fiber management system

Technical specification and ordering information

Part Number	Height	Diameter	Splicing capacity	Splice trays	Cable ports
SC-209	280mm	178mm	48	Max. 4 (12 splices/tray)	1 oval port for looped 13mm cable 3 round ports Ø16mm
B-102B	540mm	180mm	96	Max. 4 (24 splices/tray)	1 oval port for looped 22mm cable 4 round ports Ø19mm
B-102B-8	540mm	180mm	96	Max. 4 (24 splices/tray)	1 oval port for looped 25mm cable 8 round ports Ø19mm
SC-221	450mm	260mm	120	Max. 5 (24 splices/tray)	1 oval port for looped 24mm cable 4 round ports Ø17,5mm
SC-204	450mm	230mm	144	Max. 6 (24 splices/tray)	1 oval port for looped 24mm cable 4 round ports Ø17,5mm
SC-224A	450mm	230mm	144	Max. 6 (24 splices/tray)	1 oval port for looped 22mm cable 2 round ports Ø17,5mm 2 round ports Ø24mm
SC-224B	450mm	230mm	168	Max. 7 (24 splices/tray)	1 oval port for looped 22mm cable 2 round ports Ø17,5mm 2 round ports Ø24mm
SC-220	488mm	285mm	288	Max. 12 (24 splices/tray)	1 oval port for looped 30mm cable 6 round ports Ø30mm
B-103	710mm	260mm	576	Max. 8 (72 splices/tray)	1 oval port for looped 32mm cable 5 round ports Ø25mm

Fiber in-line splice closures**Applications**

- Aerial, pole-mounting, wall-mounting and underground applications
- For long haul, metro, local access (xDSL, HFC, wireless backhaul)
- FTTx deployments where aerial, below-grade and direct buried, sealed optical fiber splicing is required

Features

- Ease of installation and re-entry into the closure, no special tools required
- Installation over existing cables without disturbing a working cable
- Constructed of durable, water-proof, UV and chemical resistant material
- Robust body has high mechanical strength against impact
- Efficient fiber management system

Technical specification and ordering information

Part Number	Height	Length	Width	Splicing capacity	Cable ports	Splice trays
SC-F01	80mm	300mm	105mm	12	4 round ports Ø10mm	
SC-F02	26mm	179mm	72mm	12	4 round ports Ø10mm	
SC-106	100mm	432mm	186mm	96	4 round ports Ø22mm	Max. 4 (24 splices/tray)

FIBER BOX SPLICE CLOSURES**Applications**

- Aerial, pole-mounting, wall-mounting and underground applications
- For long haul, metro, local access (xDSL, HFC, wireless backhaul)
- FTTx deployments where aerial, below-grade and direct buried, sealed optical fiber splicing is required

Features

- Ease of installation and re-entry into the closure, no special tools required
- Installation over existing cables without disturbing a working cable
- Constructed of durable, water-proof, UV and chemical resistant material
- Robust body has high mechanical strength against impact
- Efficient fiber management system

Technical specification and ordering information

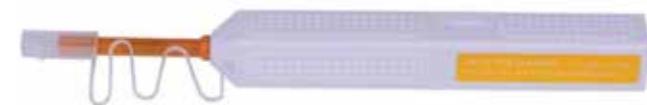

Part Number	Height	Length	Width	Splicing capacity	Cable ports	Splice trays
SC-101	900mm	280mm	200mm	48	2 round ports Ø14mm	Max. 4 (12 splices/tray)
SC-103	86mm	323mm	202mm	96	6 round ports Ø2x13mm/2x16mm/2x21mm	Max. 8 (12 splices/tray)

FIBER OPTIC TOOLS

FIBER OPTIC CLEANER PEN

Fiber Optic Cleaner Pen is designed to specially work well with the female connectors. This instrument cleans the ferrule end faces removing dust, oil, and other debris without nicking or scratching the end face.

Applications: Ferrules & Adapters Cleaning SC/FC/ST/E2000/LC/MU/SMPTE/LEMO

Ordering information:

Part Number	Description
CLEP 2.5	SC/ST/FC Cleaner Pen, universal 2.5mm
CLEP 1.25	LC/MU Cleaner Pen, universal 1.25mm

CLEANING BOX FOR FIBER OPTIC CONNECTORS

These Cassettes are for ferrule cleaning, as essential and low cost clean tool to maintain good quality of fiber optic connection.

CLEP-BOX is standard version, and they are made of fine high tense cloth fiber and are refillable to save your cost.

Cleaner cassette is the best non-alcohol cleaning method for various fiber optic terminations such as SC, FC, MU, LC, ST, D4, DIN etc.

Features:

- Special non-alcohol superfine fiber
- Well handled and antistatic
- Friendly using efficient cleaning
- Easy to replace the tape no pollutions
- Cleaning time: 500+
- Level of cleaning is 100

Ordering information:

Part Number	Description
CLEP-BOX	Cleaning cassette for 500+ cleanings

MPO/MTP CLEANER PEN

The MPO Cleaner is a high-performance device designed for cleaning the ferrule end-faces of MPO & MTP connectors. Cost effective tool for cleaning fiber end-faces without the use of alcohol. It saves time by effectively cleaning all 12 fibers at once. The MPO connector cleaner is designed to clean both exposed jumper ends and connectors in Adapters.

Features:

- Effective on a variety of contaminates including dust and oils
- Capable of cleaning ferrules with or without guide pins
- Capable of cleaning MPO ferrules inside or outside an MPO adaptor
- Narrow design reaches tightly spaced MPO adapters
- Easy one-handed operation
- Up to 500 cleanings

Applications

- Clean multimode and single-mode (angled) MPO connectors
- Clean MPO connectors in adaptors
- Clean exposed MPO ferrules

Ordering information:

Part Number	Description
CLEP-MPO	Cleaning pen for MPO/MTP adapters and endfaces of connectors

FTTH FIBER OPTICAL CABLE STRIPPER

This tool makes the work with drop fiber optic cables easy and comfortable.

Part Number	Description
SN13139A	FTTH cable stripper (for drop cable preparation)

**FIBER OPTICAL „TRI-HOLE“ STRIPPER**

Fiber optic tool, for removal of 0.25mm, 0.9mm and 2.0mm (3mm) coating of fiber optic cables.

Three options in one handy tool!

**FIBER OPTICAL KEVLAR SCISSORS**

Ergonomic fiber optic scissors, for cutting the kevlar of fiber optic cable.

Part Number	Description
SN13069	Fiber optic kevlar scissors

**VISUAL FAULT LOCATOR (PEN TYPE)**

Fiber optic laser, for visual inspection. 10mw output (testing distance 8-12KM)

Finding the breakpoint, poor connections, bending or cracking in fiber optic cables.

Optical connector: 2.5mm universal connector

Power supply: 2 AA alkaline batteries (not included)

Part Number	Description
SN13142B	Visual fault locator 10mW

VISUAL FAULT LOCATOR (GRENADE TYPE)

Fiber optic laser, for visual inspection. 5mw output (testing distance 5-8KM)

With turning protector for switch to avoid mistaken action on Switch

Central wavelength: 650nm±10nm

Optical connector: 2.5mm universal connector

Power supply: 2 AA alkaline batteries (not included)

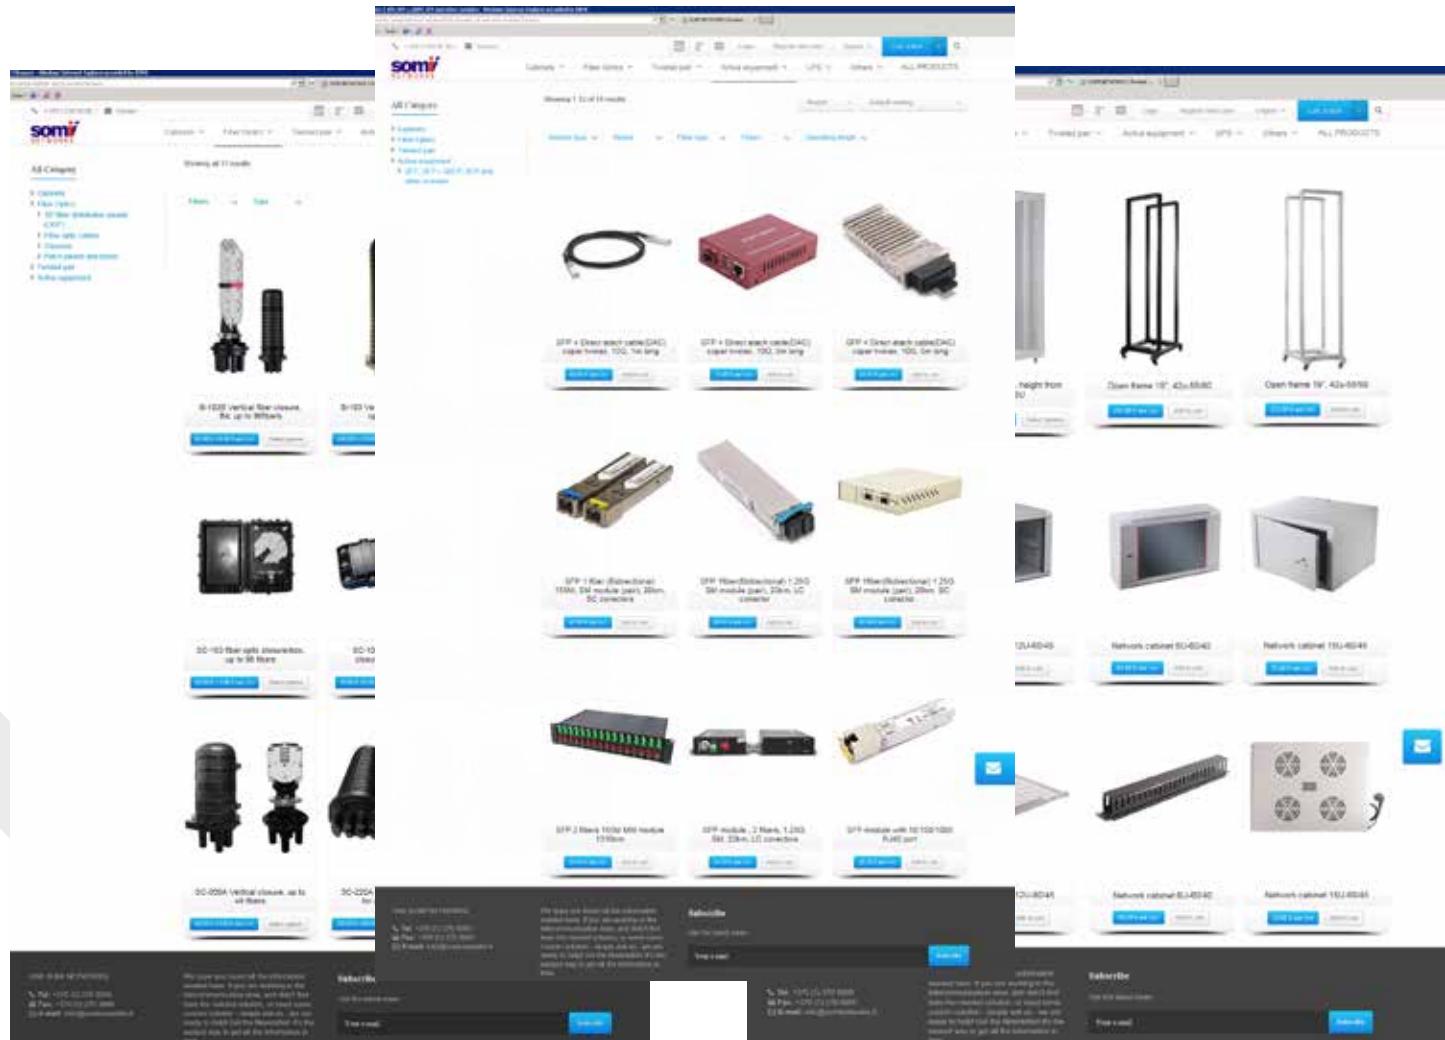

Part Number	Description
SN13146	Visual fault locator 5mW (with protected button)
