

CCSS series

Free Standing 19" distribution cabinets

Height 15U / 18U / 24U / 42U / 47U

A line of economical standing cabinets for applications in the installation of ICT systems, as well as systems security. CCSS cabinets are a natural supplement to the existing offer of elements for the construction of ICT networks. The products of this series require self-assembly, in return offering flexible logistics and low cost transport costs, while maintaining all the functional features characteristic of classic wardrobes delivered in traditional form. The construction of all cabinets has been designed with the smallest in mind details so that their assembly and operation are carried out at a high level of safety and comfort.

Key Features:

Adjustable mounting rails adapted to the grounding installation and equipped in a dimension unit scale that allows you to quickly and efficiently fit the whole frame for the desired installation scenario for devices and accessories.

Access to devices from all sides of the cabinet. Covers, panels and doors equipped with locks allowing to protect the cabinet's resources against unauthorized interference by third parties. The front door has a special lock, the elements of which, including the handle, are made of stainless metal, which ensures durability and a stylish look.

Appropriate perforation of the cabinet elements ensures effective air circulation in order to lower its temperature inside. In the case of operating devices with high heat emission, it is possible to equip the cabinets with dedicated ventilation panels that increase the cooling efficiency.

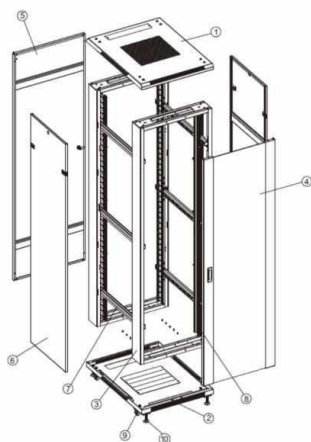

Elements of the cabinet's structure are equipped with grounding cables, which allows it to be connected to the building's grounding system, ensuring safe and proper operation of the devices installed inside.

The set includes two dedicated brush grommets for installation in the roof and floor.

The roof and floor fixing structure is designed in such a way as to eliminate the protrusion of the bolts to the outside.

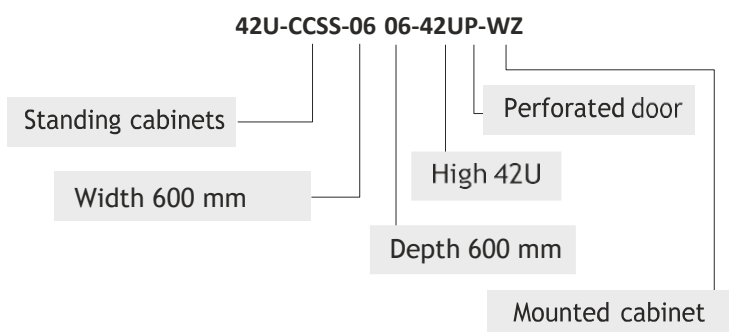

Nr.	Name	Quantity
1	Top cover	1
2	Bottom cover	1
3	Frame	2
4	Front door	1
5	Back door	1
6	Side panel	2
7	Horizontal beam	6 / 4*
8	Vertical rail	4
9	Wheels	na **
10	Levelling feet	4
11	Cable management rail	2***
12	Mounting adapter	12***
13	Brush grommet	2

* for 24U-CCSS-0606-24U / ** (optional CCAS-ZK-4) / *** for 42U-CCSS-0810-42U

Other information :

Maximum load	800 kg
Material	SPCC cold-rolled steel
Color of the paint coating	RAL9005
Cabinets package	Flat pack, Designed for self-assembly

Catalogue number definition:

Cat. No. (Flat pack)	Height in U (units)	Dimensions mm: (width*depth*high)	Weight kg
