

CCSW series
Wall hanging 19" distribution cabinets
Height 6U/ 9U/ 12U/ 18U

A line of economical hanging cabinets for small and medium-sized installations of ICT systems and security. CCSW cabinets are also ideal for use in the construction of the so-called local distribution points with low cabling density. Products in this series require self-assembly. In return, it offers flexible logistics and low transport costs, while maintaining all the functional features characteristic of classic cabinets delivered in a traditional form. The construction of all CCSW series cabinets has been designed with the smallest details in mind, so that their assembly and operation are carried out at a high level of safety and comfort.

Key Features:

Adjustable mounting rails adapted to the installation and equipped with a scale of dimensions allowing for quick and effective adjustment of the entire frame to the desired installation scenario of devices and accessories

Access to devices from all sides of the cabinet. Covers, panels and doors equipped with locks allowing to protect the cabinet's resources against unauthorized interference by third parties.

Appropriate perforation of the cabinet elements ensures effective air circulation in order to lower its temperature inside. In the case of operating devices with high heat emission, it is possible to equip the cabinets with a dedicated ventilation panel, increasing the cooling efficiency.

Elements of the cabinet's structure are equipped with grounding cables, which allows it to be connected to the building's grounding system, ensuring safe and proper operation of the devices installed inside.

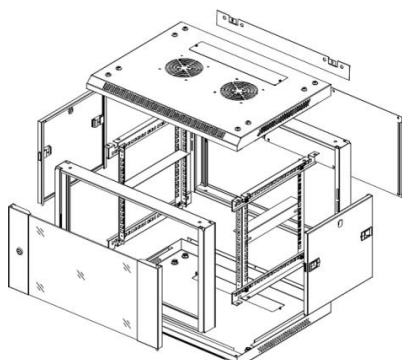

Dedicated mounting bracket allowing for quick and safe hanging of the cabinet on the wall. The installer only levels the handle, without having to hold the entire cabinet.

The set includes two dedicated brush grommets and one blanking panel for installation in the roof and floor.

The roof and floor fixing structure is designed in such a way as to eliminate the protrusion of the bolts to the outside.
